Many Blond Men with Mustaches Arrested on Suspicion

Not Identified as the East River Hotel Ripper, and Set Free.

A "Frenchy" Arrested in Brooklyn Who Lives Next the East River Hotel.

He Was Connected with a Woman Murder in Roosevelt Street in 1889.

The Mutilated Victim to Be Buried Thursday, Maybe in Potter's Field.

Detectives Carney and Noonan, of the Brooklyn police, made an arrest at 2.30 this afternoon which is regarded as having very important bearing in the solution of the murder of Carrie Brown at the East River Hotel last Thursday night.

The officers took in custody, on Farm street, a man who is known as Eli Commans, alias John Williams, alias Frenchy. He is a foreigner, speaking fluently three or four languages, and he is a desperate man.

The prisoner was brought to Chief Campbell's office, where his description was taken. He does not tally in every respect with the description heretofore published, but in many respects fits the bill.

To the Chief he claimed that he was a dock laborer, and said that he lives in a lodging next door to the East River Hotel, on the Water street side. He denied any knowledge of the killing of Carrie Brown, but admitted that he had been connected with the murder of a woman two years ago in Roosevelt street.

Chief Campbell would not express an opinion as to the prisoner's identity with the murderer, but said he should hold him until Inspector Brown, who had been notified, should see him or send directions for his disposal.

The Chief said that two other men whom Inspector Brown was looking for in connection with this case were known to be in Brooklyn, and would probably be arrested to-day.

The Frenchy who is now wanted by the police has been described by Mary Miller, and he is known to be one of the most desperate characters in the neighborhood.

All the women who frequent the vice resorts in Water street and along the river front are well acquainted with him, and on more than one occasion it is said that he threatened the lives of the abandoned women with whom he associated.

At one time he lived with a woman known as Dublin Mary at Mrs. Harrington's lodging-house at 49 Oliver street, where Carrie Brown also used to stay, and afterwards at Mrs. Finnegan's at 80 James street.

Both of these women told of the brutal character of the man, and Dublin Mary herself has been found by the police and questioned in regard to his bestial practices. She said that she had not been placed under arrest or detained as a witness because it is believed by the police that he can be found readily wherever he is wanted in case her husband's partner is captured.

All sorts of stories were floating around the Fourth Precinct this morning as to the movements of Frenchy No. 2 since the murder of Carrie Brown. Several women were found who said that they saw him with old "Shakespeare" late on Thursday night, and it is reported that on the following day he was seen at various places walking through the neighborhood unaccompanied.

It is said that he called at Mrs. Harrington's house on Friday morning, and a colored man, who plays the banjo in several of the Water street dives, declared that he saw the Frenchy police are looking for on Saturday morning at the same street.

"There are all idle reports," said Capt. O'Connor this morning to an EVENING WORLD reporter.

"No one has seen this man since the night of the murder, and the stories that he is walking around the precinct right under the noses of the detectives are absurd on their face."

"There never was a case within my recollection as a police officer which presented so many difficulties as this one, or which has called out such gigantic efforts on the part of the police to get at the bottom of the mystery."

EVERY HOUR TRYING.

Inspector Brown has told the public what he is doing and that is all I can say in regard to

the plan that is being pursued, but I can add that there is not a house or resort known in this precinct which has not been visited during the past three days, and every scrap of information that might throw any light upon the matter carefully gathered.

"The people who live in the neighborhood where the crime was committed are doing all they can to assist the department, and the women themselves, degraded and abandoned though they may be, would be glad to do anything which would help bring this murderer to justice."

"I tell you this simply to show you that everything is being done by the police to ferret out this mystery, and that the work is being pushed forward as fast as it can."

Capt. O'Connor declined to say whether it was the opinion of the police that Frenchy No. 2 was the real murderer of old Shakespeare beyond a question, but intimated that his capture might go a great way towards clearing up the present uncertainty.

That Frenchy No. 2 has kept out of the way since the murder is certain, and Capt. O'Connor thinks that the stories which have been told to reporters of his wandering around the precinct unaccompanied are entirely without foundation.

MIGHT BE A LYING.

"Why, it would be as much as that man's life was worth for him to show his nose in this precinct now."

"I believe they would have him strung up inside of two minutes if they could catch him in some of the places down in Water street."

"They all believe he is Jack the Ripper, and the women especially are stirred up about him. If he were seen it would create a riot."

CLUE IN BROOKLYN.

It is said that Frenchy No. 2 at one time kept a fruit stand in Myrtle avenue, Brooklyn, and that he lived somewhere near Front and Adams streets.

The police are investigating these reports and working up the Brooklyn end of the case with as much care and patience as they are manifesting in this city, and no loophole of escape for the murderer is being left unwatched.

There are so many people who answer the description of the suspected man that it is hard to find many arrests to be made, and the activity of the police is shown in the frequency with which prisoners are brought in and the various stations all over town and compelled to give an account of themselves.

Any man with a long nose and yellow mustache, standing about five feet ten inches, and wearing dark clothes and a battered black derby, is liable to arrest.

TWO MEN WERE ARRESTED YESTERDAY, one in City Hall Park and the other at the dock of the Red D line of steamers at the foot of Market street. Both of them, however, were discharged last night, according to Capt. O'Connor, as nothing could be proved against them, and they could not be identified by Mary Miller.

It was stated that the man arrested at the dock of the Red D line was a sailor on the Philadelphia, which is now lying at the wharf there. The first officer of the Philadelphia said this morning that this was not so. The man had been arrested on the dock by some detectives who had followed him down there and had nothing to do with the vessel.

His attention was first attracted by the crowd which gathered when the arrest was made. He said he had never seen the man before and did not know what he was doing there on the dock.

He afterwards learned, he said, that the police had let the man go.

Acting Inspector McLaughlin came to Oak Street Station at 9 o'clock this morning and retired to Capt. O'Connor's private room. He remained there all the morning directing the movements of the detectives from the Central Office, who are as thick as bees in the precinct.

They were coming and going all the morning, and the same air of mystery prevailed in regard to their movements as at any time during the past three days.

SOME OF THE HAWKERS.

Among the more prominent Central Office men who are on the case to-day are Detective Sergeant Von Gerichen, Michael Crowley, Ripper, McCluskey, McNaught and Michael Lyman.

Secret consultations were held during the forenoon in Capt. O'Connor's private office, and every man had instructions to say nothing whatever to reporters about the case.

There is now no doubt that the murdered woman, who was known both as "Shakespeare" and "Daisy," was Carrie Brown, whose antecedents the police have succeeded in tracing, and have found that she formerly lived a respectable life in Salem, Mass.

She was born in Liverpool in 1852, her maiden name being Carrie Montgomery. She came to America as a child and married Capt. James Brown, a sailor. They went to live at Salem, Mass. Here she became a church member. She had three children. Ten years after her marriage she took to drink and came to New York, where she sank lower and lower. Capt. Brown died of fever off the African coast in 1879.

Shortly after 11 o'clock Capt. McLaughlin left the Oak street station in company with
